

Certain Asian cultures are known for amazing longevity and vitality into old age. These long life spans, in large part, are the result of a diet rich in the five types of sea vegetables found in **POTENTSEA® SEA VEGETABLES** capsules.

POTENTSEA® SEA VEGETABLES are a wonderful way to obtain many of the essential vitamins and minerals that your body needs for longevity and overall good health. The nutrients found in sea vegetables are easily absorbed into your system.*

Our broad-spectrum of Sea Vegetables which includes red, green and brown marine algae provides much more nutrition than your basic Kelp supplement.

SUGGESTED USE: Take 3 capsules daily with food.
